

### **Continuation Sheet**

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Applicant's representative discussed where in the specification Applicant had possession of the claimed invention and the definiteness of the claim language. While the examiner maybe persuaded that Applicant had possession of the invention, the examiner still maintains that the claim are indefinite, since the disclosure in Applicant's specification is much more specific then the terms of the claims.
